Instruction for Scanner Sleeves

Autoclavable sleeve.

Please use gloves to avoid finger print marks on glass.

After sterilization, clean glass with soft cloth until clear.

Slide glass with beveled end pointing forward into sleeve.

Confirm glass is placed all the way to the end of sleeve.

Place sleeve onto wand.

Confirm sleeve is pushed all the way on and flush with wand.

Sleeve should look like this. Now you are ready to scan.

Pull sleeve off and remove glass. Sterilize.

The image is a screenshot of an Instagram post. The background is a dark video frame showing a dental procedure. A person in a white lab coat and blue gloves is using a blue and white device (the MagicSleeve) on a patient's teeth. The patient is a woman with brown hair, lying back in a dental chair. A large white play button is overlaid on the video. At the bottom of the video frame, there is a white text overlay that reads: "Please visit **StraussDiamond.com** to place your order". Below the video frame, there is a grid of six small images showing the steps of the procedure, labeled "Step 2" through "Step 6".

Instagram interface elements are visible at the top: the Instagram logo, a search bar with the word "Search", and "Log In" and "Sign Up" buttons. The post itself is from the account "straussdiamondinstruments", which has a blue verified badge and a "Follow" button. The post text reads: "straussdiamondinstruments Take a look at Strauss Diamond's newest innovation, the autoclavable MagicSleeve for digital scanning". Below the text are three dots, a list of hashtags: "#itero #iteroscanner #scan #scannersleeve #iteroelement #orthodontics #orthodontic #orthodontist", and icons for heart, comment, share, and bookmark. The post has "55 views" and is dated "AUGUST 15". At the bottom of the post, it says "Log in to like or comment." followed by three dots.
